Due to time constraints, item was deferred to 01/27/26 MPC meeting. Commissioners, please refer to the materials provided in the meeting packets.)*

Ms. Kate L.K. Blystone, Planning Director, referring to the Maui Planning Commission, a proposed bill amending Maui County Code Chapter 19.36.B – Off-Street Parking and Loading. The proposed bill initiated by the County Council through Resolution No. 23-163, CD1 would require newly constructed places of public accommodation outside of the erosion hazard line with at least 50 parking spaces to provide two parking spaces designated for electric vehicles and equipped with electric vehicle charging systems. Additionally, for each additional increment of 50 parking spaces, two additional parking spaces and vehicle charging systems would be required. The proposed bill mandates that the vehicle charging systems must be in working order and references Hawaii Revised Statutes for definitions of “electrical vehicle charging system” and “place of public accommodation.” The proposed bill also provides that any conflict with Maui County Code Title 16’s Energy Code will be resolved in favor of the stricter provision.
