5. General description or background of proposed request. Attach executive summary if more space needed:

This amendment adds additional required funding for project Tranche 5 of the 25-year Master Operator Agreement with McKinstry Essention, LLC, for the installation, operation, and maintenance of community solar photovoltaic generating facilities and electric vehicle chargers owned by the City as part of the Renewable Denver Community Solar Initiative. Project Tranche 5 is for four (4) community solar projects totaling approximately 1,150 kWdc of solar capacity. The project adds DPS East High School (district 10), DPS GW High School (district 5), DPS South High School (district 6), and the Urban Land Conservancy Foundry rooftop (district 3) to the Renewable Denver Community Solar portfolio and the City's collaborative partnership with Denver Public Schools. This additional funding covers the remaining costs for the projects at the Urban Land Conservancy and DPS East High School.

100% of the bill credits generated from this array will be donated to lower the utility bills of approximately 200 low-income DPS families in need spanning all city council districts. Additionally, the project will provide community engagement and offer incentives for green workforce initiatives.

6. **City Attorney assigned to this request (if applicable):** Kristin Brainerd

7. **City Council District:** Citywide
